The content of the certificate shall match the template contained in this Annex, the requirements of ISO/IEC 17021-1, and section 7.2 in Part 3 of the Scheme.

The layout of the certificate is at the discretion of the CB.

Where the certified organization requires a copy of the FSSC 22000 certificate in another language, the following requirements shall be met:

- a) The English certificate remains the original and valid version of the certificate and is the one uploaded to the Assurance Platform;
- b) The translated copy of the certificate shall be a complete and true representation of the English version and meet the requirements of this Annex;
- c) The CB shall have a process in place to manage translated copies of certificates and ensure translations are correct and accurate.

Where a full remote audit is delivered, and the outcome of the full remote audit is to maintain certification, the certificate shall be updated to add the following reference "Audit delivery: Full Remote Audit due to serious event". Following the next onsite audit (full on-site or via the ICT Audit Approach), the certificate shall be updated, and the reference to the Full Remote Audit removed.
